

**Verse 1:** One day you told me you didn't want me in your life anymore  
One day you told me that I was just a bore  
It left a feeling in my heart a feeling so sore  
It went right down to my core It went right down to my core

**Verse 2:** When I was born I didn't know the world  
Till I grew up and watched it unfold  
Fear running through my blood Feelings fill my heart  
It went right down to my core It went right down to my core

**Bridge 1:** A bird flies across the horizon  
You don't notice it but then a feather drops  
With our fight and our battle already gone  
None of us are perfect, but life still goes on

**Chorus:** Gotta be strong, gotta keep holding on  
Like a star in the night I shone, gotta keep holding on  
We've all got something to hold on to,  
We've all got something to lose,  
Gotta be strong, gotta keep holding on

**Verse 3:** Me myself and I we just wanna know  
Which way is lost  
Then round the corner we were shown  
That feeling when you sing, when it makes you want to win  
But the winning is already won, when you're the one man pushing on

**Bridge 2:** Watch the world rise up with your eyes on  
Though the lights are red and there's nothing ahead  
But we walk on and we don't need a map  
We only stare forwards and we never step back

**Chorus 2:** Gotta be strong, gotta keep holding on  
Like a star in the night I shone, gotta keep holding on  
We've all got something to hold on to,  
We've all got something? to lose,  
Gotta be strong, gotta keep holding on

**Break:** We think we're failing all the time (*We think we're failing*)  
Our lives a simple crime (*We think we're failing*)  
Can't have a voice only mime (*We think we're failing*)  
But looking on I see your sign (*We think we're failing*)  
See me  
Hear me  
But don't be me

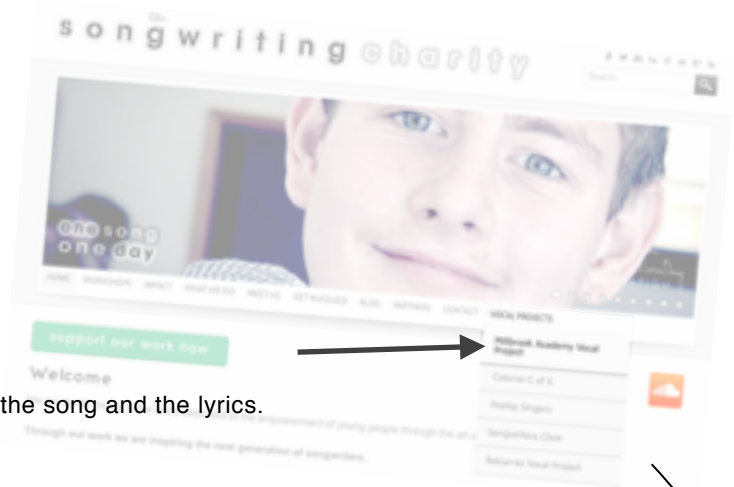

**Key Change Chorus:**  
Gotta be strong  
Gotta be strong, gotta keep holding on  
Like a star in the night I shone, gotta keep holding on  
We've all got something to hold on to,  
We've all got something to lose,  
Gotta be strong, gotta keep holding on

## How to find your song!

Always check with a trusted adult before using the internet or accessing social media

1. Go to [songwritingcharity.org](http://songwritingcharity.org)
2. Click on Vocal Projects > Cleeve Vocal Project
3. There you will find a vocal and instrumental version of the song and the lyrics.
