

Gretton - Stand up and See the light of Love

Verse:

You feel at home when you're with you're friends, things will make amends, over again
Never alone, never at the end, everyone around you is growing to see

the light
beating down on the mountain side
nowhere to hide
from the truth, it keeps on coming through

Bridge:

Look at the sky, as the world passes by,
The light of love,
Stand up and see the light of love

Chorus:

la-la lie, la-la lie
Stand up and see the light of love
la-la lie, la-la lie
Stand up and see the light of love

Verse:

Follow your heart, to your dreams, life's to be seen, wherever you go
The clouds part, the sun shines down on you

I know
That we won't fall
Stay here
with me
and be by my side

Bridge:

Stars make me feel better the light of life has come

Bridge

Look at the sky, as the world passes by,
The light of love,
Stand up and see the light of love

Chorus:

la-la lie, la-la lie
Stand up and see the light of love la-la lie, la-la lie
Stand up and see the light of love

Middle:

When you're born, you're born in the light forever

The hills in the distance, the car in the scrapyard, the house in the heavens, la, la-la la-la la

Bridge

Look at the sky, as the world passes by,
The light of love,
Stand up and see the light of love

Chorus:

la-la lie, la-la lie
Stand up and see the light of love la-la lie, la-la lie
Stand up and see the light of love
